Options	Available On
SKYACTIV-Drive 6-speed automatic transmission with manual-shift mode and Drive Selection switch	GX/GS
SKYACTIV-Drive 6-speed automatic transmission with manual-shift mode, Drive Selection switch and paddle shifters	GT
Comfort Package <i>(requires automatic transmission)</i>	GX
Convenience Package <i>(requires Comfort Package)</i>	GX
Moonroof	GS
Premium Package	GT
Technology Package <i>(requires Premium Package and automatic transmission)</i>	GT
Snowflake White Pearl	All models
Soul Red Metallic	All models
Machine Grey Metallic	GS/GT

Comfort Package	Manual air conditioning, trip computer, tachometer, steering wheel mounted audio controls
Convenience Package	Electronic Parking Brake (EPB) with updated front console design, Cruise control, Bluetooth®, 6 speakers (vs 4), 7" color touchscreen display with Mazda Connect, Rearview camera (wide angle), HMI Commander, Steering wheel mounted controls for Bluetooth® & Cruise Control, Additional USB port (2), HD Radio, Navigation-ready <i>(requires navigation SD card accessory)</i>
Moonroof	Power glass moonroof with interior sunshade, tilt-up ventilation and one-touch open feature
Premium Package	Leather upholstery, 6-way power driver's seat with manual driver lumbar support, CD player with MP3 capability, Bose® audio system with 9 speakers, Voice-activated navigation system, Advanced keyless entry, Colour Active Driving Display (ADD), Mazda Radar Cruise Control (MRCC), Smart Brake Support (SBS), Forward Obstruction Warning (FOW), Lane-keep assist system (LAS), Lane Departure Warning System (LDWS), High Beam Control (HBC), Auto-dimming rearview mirror
Technology Package	i-ELOOP regenerative braking system, active air shutters, Adaptive Front-lighting System (AFS), SiriusXM™ Satellite Radio, HomeLink® wireless control system, Traffic Sign Recognition (TSR)

2017 MAZDA3**KEY CHANGES****➤ Mazda3 includes the following standard equipment:**

- o G-Vectoring Control (GVC) - full details available on page 6
- o New front grille and signature wing design
- o Redesigned steering wheel
- o Tire Pressure Monitoring System (TPMS)
- o Meter display quality improvement (higher contrast and wider viewing angles)
- o Increase in front door pocket volume
- o Redesigned decorative panel and inner handle bezel
- o Redesigned audio segment display and 7" colour touchscreen display (where applicable)
- o Reduced levels of noise/vibration/harshness (NVH)

➤ GX includes the following equipment changes:

- o 16MY 'G' grade absorbed into 17MY 'GX' grade
- o New Comfort Package (requires automatic transmission): Manual air conditioning, trip computer, tachometer, and steering wheel audio controls
- o New Convenience Package which includes all 16MY GX equipment
- o Electronic Parking Brake (EPB) with updated console design added to Convenience Package
- o New cloth upholstery
- o Drive Selection switch added to SKYACTIV-Drive automatic transmission
- o Anti-theft alarm removed from Mazda3

➤ GS includes the following equipment changes:

- o Blind Spot Monitoring (BSM) - moved down from 16MY GT Technology Package
- o Blind Spot Monitoring (BSM) upgraded to Advanced BSM (with enhanced range)
- o Rear Cross Traffic Alert (RCTA) - moved down from 16MY GT Technology Package
- o Smart City Brake Support (SCBS) - moved down from 16MY GT Technology Package
- o Smart City Brake Support (SCBS) - increased detection distance and expanded detection angle
- o Heated steering wheel
- o Redesigned side mirror turn signal
- o New premium grade cloth upholstery
- o Drive Selection switch added to SKYACTIV-Drive automatic transmission

➤ GT includes the following equipment changes:

- o LED headlights with automatic leveling (replacing 16MY Bi-Xenon HID headlights with manual leveling)
- o LED fog lights (replacing 16MY halogen fog lights)
- o 18" alloy wheel design change
- o Dual-zone automatic climate control - moved down from 16MY GT Luxury Package
- o SKYACTIV-Drive automatic transmission offered on base GT model (16MY base GT was offered only with manual transmission)
- o Voice activated navigation system, CD-player, Active Driving Display (ADD), and Advanced keyless entry - moved up to 17MY GT Premium Package

➤ GT Premium Package (formerly 16MY Luxury Package) includes the following equipment changes:

- o Colour Active Driving Display (ADD) - enhancement to current monochrome
- o Lane Departure Warning System (LDWS), High Beam Control (HBC), Auto-dimming rearview mirror - moved down from 16MY Technology Package
- o Mazda Radar Cruise Control (MRCC) - newly added to Mazda3
- o Smart Brake Support (SBS) - newly added to Mazda3
- o Front Obstruction Warning (FOW) - newly added to Mazda3
- o Lane-keep Assist System (LAS) - newly added to Mazda3

➤ **GT Technology Package (requires Premium Package and automatic transmission) includes the following equipment changes:**

- o Traffic Sign Recognition (TSR) - displays speed-limit, no-entry, and stop sign information on the Active Driving Display (ADD)

➤ **Exterior colours:**

- o Added Machine Grey Metallic (46G); only available on GS and GT trims
- o Added Eternal Blue Mica (45B); only available on GS and GT trims
- o Added Sonic Silver Metallic (45P) to replace Aluminum Metallic (38P)
- o Meteor Grey Mica (42A) only available on GX with Convenience Package
- o **UPDATE:** Snowflake White Pearl (25D) and Soul Red Metallic (41V) available on all GX models

➤ **Interior colours:**

- o New cloth fabric (BW8) replaces 16MY (BV0) and is available standard on GX
- o New premium grade cloth fabric (BW8) replaces 16MY (BV0) and is available standard on GS and GT
- o Black Leather with auburn interior accents (BX0) replaces (BV0) and is standard on GT Premium and Technology Packages
- o Pure White Leather with white interior accents (GX1) replaces Off-White Leather (BV2) and is optional on GT Premium and Technology Packages

Memo:

On 17MY vehicles we have renamed the "SPORT mode" function on automatic transmissions to "manual-shift mode." The functionality of this feature has not changed.

17MY Fuel Economy Update

As previously communicated, there has been a change in the 5-cycle fuel consumption testing methodology that is effective starting with 17MY vehicles.

This change uniformly affects all manufacturers selling applicable vehicles in Canada. The fuel consumption ratings referred to are those recognized and catalogued by Natural Resources Canada. In the United States, the Environmental Protection Agency is also adopting a revised testing methodology for 17MY vehicles.

As a result of this new testing, situations could result where published fuel economy results change 17MY versus 16MY. This could occur despite a 17MY vehicle not exhibiting any changes from the 16MY vehicle.

Note also that changes in trim mix and equipment from model year to model year can also have an effect on the published fuel consumption numbers. Therefore, if there are changes on the published numbers between 17MY and 16MY, it could be any combination of these that are contributing to the differences.

➤ **Fuel economy ratings for 2016 model year:**

Fuel Economy Ratings (L/100km)

		GX/GS		GT		GT with i-ELOOP
		6MT	6AT	6MT	6AT	6AT
City		8.0	7.9	9.3	8.4	8.2
Highway		5.8	5.7	6.4	6.1	5.9

➤ **New fuel economy ratings for 2017 model year:**

Fuel Economy Ratings (L/100km)

		GX/GS		GT		GT with i-ELOOP
		6MT	6AT	6MT	6AT	6AT
City		8.5	8.4	9.3	8.8	8.5
Highway		6.2	6.4	6.9	6.6	6.4

G-Vectoring Control (GVC)

WHY

Progression of the Jinba-Ittai philosophy

Mazda aims to offer vehicles that provide driving pleasure and enrich the lives of their owners. We have achieved this through the pursuit of Jinba-Ittai, a feeling of unity between driver and vehicle. GVC is the first technology within SKYACTIV-VEHICLE DYNAMICS, and is part of the SKYACTIV series of technologies. SKYACTIV-VEHICLE DYNAMICS was conceived to integrate control of the engine, transmission, chassis and body to enhance the car's Jinba-Ittai feel; a sense of connectedness between car and driver that differentiates Mazda vehicles from others.

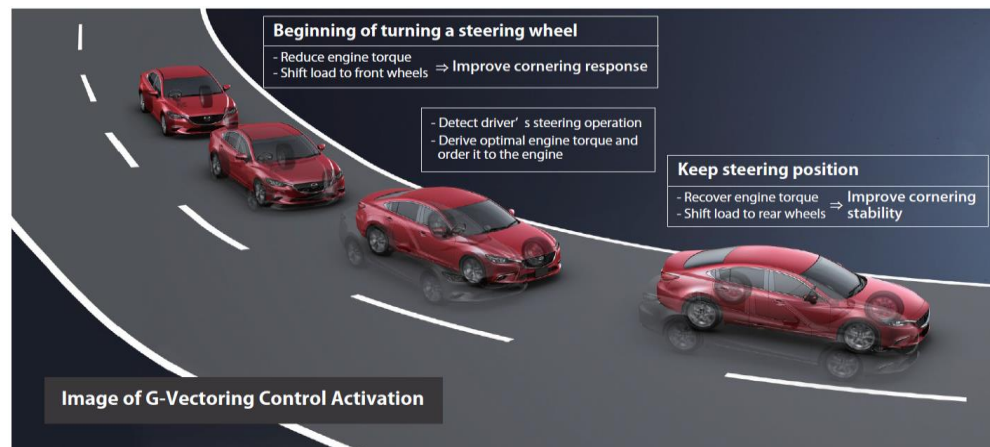

HOW

Enhancing chassis performance using the SKYACTIV engine

GVC is only possible thanks to the existence of SKYACTIV engines, which enable precise control of drive torque, and the SKYACTIV-CHASSIS, which facilitates ideal vehicle behavior. GVC maximizes tire performance by focusing on the vertical load on the tires. The moment the driver starts to turn the steering wheel, GVC controls engine drive torque to generate a deceleration G-force, thereby shifting load to the front wheels. This increases front-wheel tire grip, enhancing the vehicle's turn-in responsiveness.

Thereafter, when the driver maintains a constant steering angle, GVC immediately recovers engine drive torque, which transfers load to the rear wheels, enhancing vehicle stability.

This series of load transfers extracts much more grip from the front and rear tires, improving vehicle responsiveness and stability according to the driver's intentions.

A natural control effect based on a human-centered development philosophy

Mazda studied the biomechanical relationship between the human and a vehicle in operation in order to tune the system to maximize a smooth interaction. The reaction rate and amount of control has been aligned with human sensibilities.

BENEFITS OF GVC

Confidence increases as the car behaves more in line with driver expectations

The driver operates the steering wheel to keep the vehicle within its lane whether driving in a straight line or cornering. However, due to irregularities and undulations in the road surface, the vehicle does not always travel along the expected line, forcing the driver to make corrections with the steering wheel.

Since GVC provides enhanced response to slight steering wheel operations, it greatly reduces the size and frequency of steering corrections.

Because GVC simultaneously enhances handling and stability by optimizing the vertical load on the tires depending on driving conditions, it demonstrates even greater effectiveness in rain and snow and on poor road surfaces.

GVC is also effective at reducing fatigue for both driver and passenger. Fatigue steadily builds up as the driver continues to make minor steering corrections. Since GVC helps alleviate these corrections, it reduces accumulated fatigue over long distances. And by smoothing the transitions between G forces, GVC suppresses the swaying of head and body experienced by vehicle occupants, enabling them to enjoy a more comfortable drive.

Reduction in torso-sway with GVC

* In-house passenger seat comparison of left-hand turn at 30 km/h (lateral acceleration of 0.4 G)

Moving forward, Mazda plans to deploy GVC in most of its new-generation vehicles.

2017 MAZDA3

COLOUR AND TRIM GUIDE

DISCLAIMER

This colour guide has been added to facilitate the ordering process. Although we have made every effort to match the colour and fabric, we cannot guarantee the images below are an exact equivalent.
